Application No.: 09/756,071

In th Claims:

Please replace amended claim 1 as submitted in the Preliminary Amendment of April 1, 2002, with the following amended version thereof:

Subcil

1. (Twice Amended) A method for intervention of γ 2 chain interactions of invasive carcinomas with surrounding tissues by exposing an invasive carcinoma to anti- γ 2 chain antibodies against the γ 2-domain III chain of laminin-5.

Please add new claims 7, 8, 9, 10 and 11, as follows:

Subj

7. (New) The method of claim 1 wherein said exposure of invasive carcinomas to the antibody against the γ2-domain III chain of laminin-5 is *in vitro*.

- 8. (New) The method of claim 1 wherein said exposure of invasive carcinoma to the antibody against the γ 2-demain III chain of laminin-5 is *in vivo*.
- 9. (New) The method of claim 1 wherein cells of the invasive carcinoma are inhibited from migrating upon exposure to the antibody against the γ 2-domain III chain of laminin-5.
 - 10. (New) The method of claim 9 wherein the antibody is monoclonal.
 - 11. (New) The method of claim 9 wherein the antibody is polyclonal.
